**IN NORTH AMERICA,
34,000 FALLS FROM LADDERS CAUSE**

113 **DEATHS,**
ON AVERAGE,
PER YEAR

COMPLICATIONS RELATED TO EAVESTROUGHS

SNOW AND ICE

The eavestrough becomes deformed under the weight of snow and ice, leading to increased risks of water infiltration.

DEAD BIRDS

Nobody likes these bad surprises when cleaning their eavestroughs.

YOU HAVE BETTER THINGS TO DO THAN CLEANING EAVESTROUGHS

CONIFER NEEDLES

No doubt the worst enemy of your gutters and downspouts.

GRAVEL AND SHINGLES

It is common to have to use a shovel to remove big debris.

BASEBALL

Risking your life on a ladder to get the kid's toys, a classic.

double  pro™

MICROFILTRATION CONTINUOUS HANGER™

DoublePro is a dual-action gutter protection system.

It is built to stand up to the worst weather conditions in Canada
and keep your gutter free of ice and debris year after year.

THE STANDARD. MADE BETTER.

360° LIFETIME WARRANTY

Alu-Rex's flagship product is covered by the most extensive warranty in the industry: a lifetime warranty on materials, durability, and clog-free performance. DoublePro is the only gutter guard whose clog-free warranty covers pine areas.

CUTTING EDGE TECHNOLOGY

vortex™ TECHNOLOGY

The suction created by the two membranes makes it possible to drain three times more water than ever recorded in the heaviest storms.

The inner membrane draws water through the wider holes.

eclipse™ TECHNOLOGY

The double membrane keeps debris from getting inside the gutter.

The offset holes make it the perfect filter, allowing water to drain freely while blocking pine needles and leaves without ever getting clogged.

roll@back™ TECHNOLOGY

This technology sends excess rainwater back into the gutter for truly high-volume drainage capabilities.

winter shield™ TECHNOLOGY

Wintershield stops ice from building up and in the gutter, protecting it from warping caused by freeze/thaw cycles. That way, water flows through the gutter rather than into your home.
